

Retail H&S Forum: Summer safety

Guidance

20th March 2018

Purpose

To consolidate guidance from members on working safely outdoors in the summer.
To share good practices with members to cascade within their field based businesses and contract partners where appropriate.

Scope:

The work covers safety and health related risks of working in the UK in the summer months, and considered the impact of sun, heat and animals and insects.

Key findings:

9 key topics are covered in slide format, available to use in tool box talks and internal communications

Author/s:

Nikki Strickland EON and Simon Warrilow EDF Energy

Context:

The work was carried out to help share good practice across the Retail H&S forum members, with a view to keeping our people safe and healthy in the summer.
