

# Electricity Switching – October 2019

## Over five million customers switch so far in 2019

Energy UK’s latest electricity switching figures - published today - reveal that 626,284 customers moved to a new supplier last month – down 1.1% on October 2018.

This brings the total number of switches to 5,367,738 so far this year, up 9.2% on the same time last year - when a record 5.8 million customers switched supplier.

### Audrey Gallacher, Energy UK’s director of policy, said:

“This month’s figures show that consumers continue to take advantage of the increased competition. Over 5.3 million customers have already moved to a new supplier and switching is on track to hit the 6 million mark this year.

“With the temperatures dropping across the country, I’d encourage consumers to get in touch with their supplier or have a look online to make sure they’re on the best deal ahead of winter and the cold weather.

“More importantly I’d urge everyone to make their homes more energy efficient – for example by insulating the roof or installing LED light bulbs - as this is the best way to save money on your bills and at the same time do your bit to save the planet”

### Notes for editors:

▶ [To see the latest monthly switching stats, please visit Energy UK’s website.](#)

▶ The rise in switching figures over last few years has been as follows:

▶ The switching data is now supplied by Gemserv (starting from September 2018). Gemserv Limited is the service company contracted by the MRA Service Company (MRASCo) to provide services in support of the MRA including the management of its governance and providing specialised expertise to MRASCo in support of the growing electricity retail market. Historical data up to August 2018 was provided by Electralink.

▶ The data referenced in these reports is for electricity only. These figures include both domestic (Profile Classes 1 and 2) & non-domestic customers (Profile Classes 3-8 and 0) but do not include customers transferred to another supplier as a result of the Supplier of Last Resort process (SOLR).

▶ For more information about the Guarantee: [www.energyswitchguarantee.com](http://www.energyswitchguarantee.com)

▶ These figures do not include internal electricity switching. Such statistics can be found on the [Ofgem website](#).

## Change of Supply Event

A 'Change of Supply Event' is the industry term for describing when a domestic or non-domestic customer switches from one supplier to another. The total number of electricity switches in October was 626,284.

### Total number of switches

## Movement between supplier groups

In October 2019, of all switches:

- ▶ **32%** were from larger to small and mid-tier suppliers
- ▶ **16%** were from small and mid-tier to larger suppliers
- ▶ **23%** were between larger suppliers
- ▶ **29%** were between small and mid-tier suppliers

### Movement between small and mid-tier and larger suppliers

Larger suppliers in the market include British Gas, EDF Energy, E.ON, npower, Scottish Power and SSE.

Small and mid-tier suppliers consist of all the other suppliers who are licensed by Ofgem to supply electricity.

## Gains by small and mid-tier suppliers

In October the net gain\* by small and mid-tier suppliers was 99,110 this is 16% of all switches.

\*Net gain is the number of switches from larger to small and mid-tier suppliers minus the number of switches from small and mid-tier to larger suppliers.
